

TOUGH LUBRICANTS FOR TOUGHEST TERRAINS

VALVOLINE MINING SOLUTIONS

Profleet LS

**SAE 10W-40
API CI-4**

Long Drain Oil suitable for use in Euro IV, V, VI Heavy Duty Diesel Engines used in Mining

- Full Synthetic Ultra High Performance Diesel Engine Oil (UPHD)
- Unique formulation protects the latest after treatment systems including EGR, SCR & DPF systems
- Longer Drain Interval, Cleaner Engine

Pack sizes: 200L, 18L

All Fleet Premium All Fleet HD

**SAE 15W-40
API CI-4/SL**

Best Suited for Truck & Bus, Light Duty Pick Up Trucks, Mining, Construction Equipment

- BioDiesel Compatible
- Rapid Flow Technology (RFT) for Excellent Cold Start Protection
- Excellent High Temperature deposit control provides enhanced engine cleanliness

Pack sizes: 200L, 18L, 5L, 1L,

All Fleet Turbo

**SAE 15W-40, 20W-50
API CF-4**

- Works well with high sulphur diesel
- High TBN for protection against harmful acids from high sulphur diesel
- Excellent Corrosion Protection for Longer Engine Life

Pack sizes: 15W-40 : 200L, 18L, 5L, 4L, 1L
20W-50 : 200L, 18L, 5L, 1L

All Fleet Plus

**SAE 10W, 30, 40, 50
API CF-4**

Recommended for use in high speed naturally aspirated and turbo charged diesel engines.

- Highly refined lube base stock
- Selected additive package
- Special oil soot thickening control agent.

Pack sizes: 200L, 18L

Ultramax AW (HLP)

Hydraulic AW (HLP)

ISO VG Grade 32, 46, 68 and 100

Exceeds DIN 51524 Part II (HLP),
Dennison HF-0 and HF-2 Specification

- Specially formulated for use in hydraulic systems employing high performance pumps
- Possess very good oxidation, demulsibility characteristics & high FZG rating
- Excellent film strength & anti-wear properties minimizes wear in pumps, rings, valves, pistons, cylinders etc.

Pack sizes: 200L, 18L

TOUGH LUBRICANTS FOR TOUGHEST TERRAINS

VALVOLINE MINING SOLUTIONS

Drive Train Transmission Oil

SAE 10W, 30, 50

Meets performance requirements of Caterpillar TO-4, Komatsu Micro clutch, Eaton Fuller and Tremac/TTC equipment

- Provides consistent and reliable friction performance and elastomer compatibility while guarding against gear wear, rust and corrosion, foaming and oxidation
- Superior wear control and strong extreme pressure performance
- Exceeds CAT TO-4 standard

Pack sizes: 200L, 18L

Gear Gard Super

SAE 85W-140, 80W-90, 140, 90
GL-5

- Provides outstanding thermal stability for cleanliness and longer service life
- Protects parts from rust and corrosion
- Specially formulated to meet severe duty operation

Pack sizes: 200L, 18L, 1L

Zerex HD Nitrite Free Coolant

Best Suited for Longer Drain All On Highway & Off Highway Heavy Duty Diesel Engines

- Long Life up to 10 years/1,600,000 KM/20,000 hours of service*
- State-of-the-art Organic Acid Technology protects diesel engines from liner pitting and cavitation erosion
- The silicate and nitrite free extended life chemistry protects cooling system metals from corrosion including aluminum

Pack sizes: 1000L, 208L, 18L, 4L

Mine Grease

Lithium Complex EP2 Grease with Moly

The grease provides excellent high temperatures, anti-corrosion and anti-oxidation performance.

- Formulated using high viscosity mineral oil and lithium complex soap.
- Carefully selected solid lubricants and synergistic blend of additives best suited for lubrication of slow moving heavy duty bearing found in mining and steel industries.

Pack sizes: 180 Kg, 18 Kg

Supreme Grease EP2

Super Premium Lithium Complex Grease for Mining & Off highway applications

- Super premium quality lithium soap grease with high load bearing capacity for heavy duty and heavy load applications
- Higher service life which reduces re-greasing interval
- Excellent Water resistance prevents water washout

Pack sizes: 180 Kg, 18 Kg

Lithium EP2 Grease

Extreme Pressure Grease for use in Off Highway & Mining Applications

- Formulated to provide outstanding mechanical stability & EP characteristics under severe operating conditions
- Provides excellent lubrication in both high and low temperature conditions
- Provides good resistance to water wash-out and performs well under heavy load and high speed conditions

Pack sizes: 180 Kg, 18 Kg
